

Greetings cards - first set

Double-fronted black and white batik design with stripey back panel, curved left and right front flaps, opening onto a coloured inside, with message on central inside panel. There are 3 different inside colour choices – to create a complementary display set of 3 cards.

Designed to be shrinkwrapped individually with an envelope in the same colour as the inside. Envelope to be placed inside card, so both sides of the card are visible in the shrinkwrap. (This won't work unless the envelope is folded!)

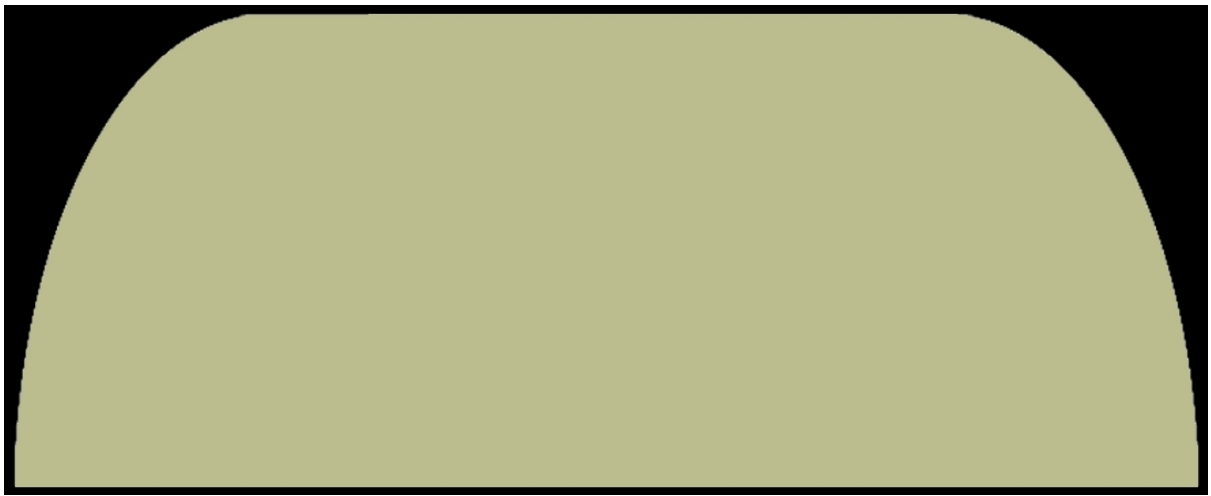

Note that the black on the images below will be cut away

Outside

Inside – 3 alternative coloured backgrounds

Inside message (on coloured backgrounds)

Very rough mockups without message
